Dean, Brigham Young University

Dear Vice Chancellor/Principal/Director/Teacher,

It is with immense pride and pleasure that we pen down the seed thoughts behind organising the '3rd Global National Teachers Congress' at Pune-India- a city which has been home to Greatest Academicians, Scientists, Researchers, Literary Nobel Laureates and Educationists of all time. The National Teachers' Congress (NTC) is a Global Confluence of 5000+ renowned Teachers of Indian Origin serving Higher Education Worldwide.

NTC-2019 is scheduled to be held on 4th, 5th & 6th Jan 2019. Now, in its third year, the Congress will focus on the theme "**Leap-Frogging to a Future Ready Higher Education**", intended to deliberate & devise ways to resolve the pressing needs of Higher Education Segment at the peak of a Digital Revolution.

In this Digital Era, we rely on education to teach young people tolerance, teamwork, empathy and care — and if not in our Schools and Classrooms of Higher Learning then where? These are the seed thoughts that demand your attention as we believe 'Teachers have the greatest Influence in Creating Healthy Minds & Bodies.'

The esteemed Advisory Council of NTC agrees that, we need more innovation in education including all that technology has to offer from apps and bots to AI and blended e-learning. However, while technology should reinvent the role of the teacher in the classroom, we cannot forget that in an era of increased social exclusion and reduced family support systems, the role of teachers to bring humanity, warmth and community feeling is ever more critical. The three days conclave will witness concurrent sessions, paper presentations, panel discussions and knowledge exchange sessions will fearlessly pursue solutions and brainstorm on impact of Innovation & technology on Student Learning Outcomes and Society at large. The sessions will witness voting by participants on specific policy changes that will be submitted to Ministry of Education. One of the key Highlights of the NTC-2019 will be the 'Jeevan Gaurav Puraskar'-a 'Life Time Achievement Award' which pays tribute to outstanding personalities from the Education Industry who have been creating Generations of Innovative and Enlightened Students.

At the end of three days, we are confident that together we would have taken a step ahead in the direction of strengthening the connection with Future ready Education, Research, Innovation & Technology to create Teaching- Learning Environment suitable for the Digital Age. We would have defined the emotional and social dimensions of teaching alongside the need for enhanced content and "hard skills".

We invite all the 'Thought Leaders', Academicians, Researchers, Teachers and Scholars serving Higher Education in India and across the world to step-forward and take active part in National Teachers' Congress-2019.
