“I measure the progress of a community by the degree of progress which women have achieved.”

Dr. B.R. Ambedkar

Concept Note:

About the University

The Babasaheb Bhimrao Ambedkar University (A Central University) Lucknow (NAAC Accredited “A++” Grade) is one of the premier Central Universities in the country established on 10th January 1996 to promote advanced knowledge, to offer appropriate courses relevant for the development of socially and educationally depressed section of the people, including agricultural technology and rural crafts; to promote the study of the principles for which Babasaheb Bhimrao Ambedkar worked during his lifetime .

An inclusive society is a society based on equality and justice that over-rides differences religion, race caste based on quality and gender in particular. Inclusion ensures equality and equitable justice in all spheres of life and to give everyone, the opportunity to come forward at equal footing regardless of any social-economic, cultural and political barriers. It aims to create conditions which enable full and active participation of every member of the society in all aspects of their life including socio-economic and political culture of the society.

All the democratic countries world over affirms the idea of inclusive society however, women in every society are still deprived from the various opportunities and ignored to be included her participation in the socio-economic and political culture of national life, particularly in Indian society

which is based on the various social- cultural and religious taboos.

After the 77 Year of independence, when Constitution declares and guaranteed equality, justice, liberty, fraternity and remove the discrimination and biasness on the basis of Sex, even then the Indian society is facing the discrimination, deprivation and exclusion from various aspects of life and society.

The economic inequality is manifestation of inherent social inequality in Indian society. Social equality cannot be achieved without economic equality, They work but under paid, they earn but don't encouraged to decide to spend money by their own, they have ability to do anything but chained with the circumscribing limits and due to the strong religious and social taboo women in India are still excluded from attaining the real economic empowerment as she has no autonomy to take decision in financial matter. Even she has not been encouraged to take financial decision by their own. Due to the exclusion of women from various opportunities as the basis of convenience we are not able to utilize the full capacity of women in nation building , therefore it is direly needed that to development of our nation the work force of half of the population i.e. women should also be utilize in positive manner by inclusion of women at every level.

To understand this the United Nation Organization has declared the theme of the International Women's Day 2024 **#inspireinclusion** The theme of present seminar is inspired by this theme.

About the Department

The Department of Law started from Session 2008-09 within the School of Legal Studies offering four-Semester LL.M, Ph.D. and BBA LL.B. (H) program , The main objective of the Department is to impart legal education and to bring the students into social and legal services, make them self-employed and also get them placement in various governmental and nongovernmental organizations

The Department of Law offers a two-year LL.M. Program spread over four semesters and offers specialization in Environmental Law, Administrative Law, Intellectual Property Rights and Criminal Law. The LL.M. program is designed to inculcate research skills and analytical abilities in students.

The Department of Law, School of Legal Studies offers a full-time Ph.D. program under the guidance and supervision of esteemed and eminent faculty members.
