Programme Outcomes

After the completion of this programme the student will be in a position to work at middle and top managerial positions in all types of libraries, viz. academic, public, or special. It involves competencies relating to drafting and getting approval for the library policy, delegation, recruitment, conflict resolution, etc. They will have competencies to design and develop innovative library services such as institutional repositories and library management systems for the specific needs of the community of users. Additionally, they will be able to conduct studies to evaluate the impact, effectiveness and efficiency of library services and library collection among the users. Another outcome of the programme is to develop a strong subject foundation for doctoral-level courses in library and information science.

1st Semester

Course Code	MLIS-101*
Course Title	Information System and Programmes
Type of Paper	Open Elective
Credits	04
Teaching Hours	45 Hours

Learning Outcomes

Upon successful completion of the course, students will be able to:

- Identify national information system.
- Understand their role in providing information.
- List out and elaborate various national information systems.
- Understand international information systems.

Course Code	MLIS-102 (A)
Course Title	Any LIS course of 4 credits from SWAYAM
Type of Paper	DCE
Credits	04
Teaching Hours	45 Hours

Course Code	MLIS-102 (B)
Course Title	Academic Libraries
Type of Paper	DCE
Credits	04
Teaching Hours	45 Hours

Learning Outcomes

Upon successful completion of the course, students will be able to:

- Understand different types of academic libraries
- Understand the role and importance of libraries in academic institutions
- Understand collection building in academic libraries
- Understand various services offered by academic libraries

Course Code	MLIS-102 (C)
Course Title	Special Libraries
Type of Paper	DCE
Credits	04
Teaching Hours	45 Hours

Learning Outcomes

Upon successful completion of the course, students will be able to:

- Understand that special libraries are unique
- Differentiate special libraries from other kinds of libraries
- Familiar with approaches to building, maintaining and managing a special library
- Negotiate the purchase and access of both print and electronic resources necessary to providing information service

Course Code	MLIS-102 (D)
Course Title	Public Libraries
Type of Paper	DCE
Credits	04
Teaching Hours	45 Hours

Learning Outcomes

Upon successful completion of the course, students will be able to:

- Understand public library manifesto
- Understand organisation of public libraries
- Understand public libraries legislation
- Understand management of public libraries

Course Code	MLIS-103
Course Title	Research Productivity and Metrics
Type of Paper	Core
Credits	04
Teaching Hours	45 Hours

Learning Outcomes

Upon successful completion of the course, students will be able to:

- Be familiar with the concept of bibliometrics, informetric, scientometrics, webometrics and altmetrics
- Carry out quantitative studies on various subject fields.
- Get acquainted with the concept of citation analysis, different forms of citation, impact factor etc.

- Apply qualitative as well as quantitative techniques in library and information science.

Course Code	MLIS-104
Course Title	Research Methods and Statistical Techniques
Type of Paper	Core
Credits	04
Teaching Hours	45 Hours

Learning Outcomes

Upon successful completion of the course, students will be able to:

- Familiarise with the process of research and different research methods.
- Develop the skills for quantitative data analysis and consolidation.
- Write cohesive and succinct reports.

Course Code	MLIS-105
Course Title	Marketing of Information Products and Services
Type of Paper	Core
Credits	04
Teaching Hours	45 Hours

Learning Outcomes

Upon successful completion of the course, students will be able to:

- Make the required information reach larger audience in accessible and usable form
- Develop vibrant professional for the information marketing and optimum utilization of information resources.
- Make intensive use of information in wide range of development activities
- Enable students to assess information user needs.
- Inculcate the skills of information analysis, evaluation, synthesis, packaging and repackaging of information product.
- Define the process of information consolidation and describe its role and potential benefits in satisfying information need of users.

Course Code	MLIS-106
Course Title	Information and Digital Literacy for Social Groups
Type of Paper	CEC
Credits	02
Teaching Hours	22.5 Hours

Learning Outcomes

Upon successful completion of the course, students will be able to:

- Understand civic identity in more detail.

- Develop and increase their capacity for active participation in a community.
- Experience the joy, fulfillment, and well-being that come from building reciprocal relationships in one's community.

2nd Semester

Course Code	MLIS-201*
Course Title	Scholarly Communications and Management
Type of Paper	Open Elective
Credits	04
Teaching Hours	45 Hours

Learning Outcomes

Upon successful completion of the course, students will be able to:

- Acquaint with various electronic resources management.
- Understand the factors associated with digital information literacy.
- Know the importance and role of various databases.
- Know the concept and utilization of open access resources.

Course Code	MLIS-202
Course Title	Information Communication Technology - Applications (Theory)
Type of Paper	Core
Credits	04
Teaching Hours	45 Hours

Learning Outcomes

Upon successful completion of the course, students will be able to:

- Deal with the knowledge of hardware, software, networking, interactive media, telecommunication, personal technologies, and new and emerging devices and technologies.
- Develop and implement support strategies of effective news of Information Technology
- Implement policies and procedures necessary to ensure effective, secure and appropriate use of information resources and services
- Efficiently manage procurement and acquire new hardware and software
- Develop social skills data essentials for cooperative and collaborative learning based around ICT

Course Code	MLIS-203
Course Title	Information Communication Technology -Applications (Practice)

Type of Paper	Core
Credits	04
Teaching Hours	45 Hours

Learning Outcomes

Upon successful completion of the course, students will be able to:

- Understand design, development and implementation of library management software.
- Comprehend design, development and implementation of Digital library software.
- Understand basics of database management.

Course Code	MLIS-204
Course Title	Dissertation/Project/Internship
Type of Paper	Core
Credits	10
Teaching Hours	112.5 Hours

Learning Outcomes

Upon successful completion of the course, students will be able to:

- Understand the overall process of designing a research study from its beginning to its report.
- Acquainted with ethical issues in educational research.
- Able to recognize a research problem.
- Conversant with conducting a literature review.
- Understand the method and process to conduct a statistical test.
- Understand the criteria that can be used to select an appropriate statistical test to answer a research question or hypothesis.
